

Robin Hood

D.O.A.

I took a trip to Nottingham
The land of Robin Hood - he got the goods
To set things right, he'd steal from the rich
And give to the poor - he evened the score
But just like then and just like now
The rich got their sheriffs - here come the bulls
But Robin Hood, he weren't no dummy
He split the scene - he got away clean

You know it
This is what he'd say:

What's right is right and what's wrong is wrong
Let's steal from the rich and throw it around
We might get busted, but I'll take that chance
'Cos what's right is right and what's wrong is wrong

My car got repo'd, the bank took my house
I was down on my luck - I needed some bucks
So I figured what's right is right
And what's wrong is wrong - It didn't take long
So I got a gang and we pulled a job
As sweet as honey - we got the money
We had more than enough, so we took a ride
To the wrong side of town - and we threw it around

You know it
This is what he'd say:

What's right is right and what's wrong is wrong
Let's steal from the rich and throw it around
We might get busted, but I'll take that chance
'Cos what's right is right and what's wrong is wrong

Let 'em have it!
The rich get rich and the poor get poorer
For corporate's sake - give us a break
Just remember this, when you pull a heist
It's time for payback from way back

You know it
This is what he'd say:

What's right is right and what's wrong is wrong
Let's steal from the rich and throw it around
We might get busted, but I'll take that chance
'Cos what's right is right and what's wrong is wrong
(2x)
