

Misunderstood

D-Side

I try catching your eye
I try calling out your name
Looking in front the outside
Everyday over same
If I could walk up to you
If I could see what I want it too
If I could make you smile

It's not like I'm crazy
Just misunderstood
You don't even see me
Looking into your world
I try to get inside
To see me through your eyes

Could you be closer?
Closer than next to me
And my left of the outside
Just where I don't wanna be
If I could talk to you
If I could tell you what I want it too
If I could make you smile

It's not like I'm crazy
Just misunderstood
You don't even see me
Looking into your world
I try to get inside
To see me through your eyes

I use to know what I should say
Only the right way
Now I'm about line
So I wanna it find
How are you see me through your eyes?
