

# Believe In What You Say

D'Sound

You give me many names  
Change my weary ways  
This is why I call you «shine»

Change the colour tone  
Re-arrange my home  
Taking over all my mind

The way you wear your smile  
When you're unaware  
Makes me wanna squeeze you tight

Why can't you believe  
The way you get to me  
Do I have to sing all night?

Believe in what you say  
Believe in what you do  
You make me happy

Why are you uptight?  
Why are you so tense?  
What are you afraid of doing?

Trust me when I say:  
Everything is ok  
- any kind of mood you're in

You're so beautiful  
When you're kicking back  
Nobody could take your place

Everything you feel  
And everything you think  
I can see it in your face
