Stay Forever Young

Do you belive that all the feelings I will show you are for real Do you have faith in me Do you believe that everyone Around the world are happy now Maybe you will know the truth

I will always be the one for you No doubt about it Together we'll be strong And stay forever young I will always be the one for you I'm so sure Together we'll be strong and stay forever young

Those small cute words you say to me Divert the troubles I had before It's beautiful to know That you can make me feel so lucky It's like a dream I breathe the air surrounding our souls

I will always be the one for you No doubt about it Together we'll be strong And stay forever young I will always be the one for you I'm so sure Together we'll be strong and stay forever young

I will always be the one for you No doubt about it Together we'll be strong And stay forever young I will always be the one for you I'm so sure Together we'll be strong and stay forever young Da Buzz
