There was a time, when we were in love
And we ran in the sand, trough the days and nights
We looked in the sky, the sunset turnes over to a
fullmoon descies
The time of my life....
The hot summer nights are never forever
Oh how can it be that my loveOs still so strong
I can not sleep, IOll allways remember
The look in your eyes when we said goodbye

I wanna love you forever
And tell you how much I care
I wanna hold on together
How can I show you that it□s for real
I wanna love you forever...

You took my heart, you took it all.

How can I go on, oh now when I know.

Still holding your hand, a whisper of love

ID11 allways belive that our love can be true.

The hot summer nights are never forever

Oh how can it be that my loveDs still so strong

I can not sleep, ID11 allways remember

The look in your eyes when we said goodbye

I wanna love..... I won \Box t forget the nights we shared And the love that we had I won \Box t regret the things I said I wanna love you forever....
