

Forsaken

Daggers

TV took your soul away and sold it to the USA
We're not the same
Whoah-oh-oh
Everything you put me through, I couldn't get enough of you
We're not the same
Whoah-oh-oh

And you crave sensation
But imitations as you do
And everybody's waiting
So what you gonna do?

If we're all forsaken
then what am I to you?
I could change your mind if you want me to
Remember where you came from
Forget what they're telling you

KKK, have to pray
Jesus put your gun away
It's not the same
Whoah-oh-oh
Hallow'een and movie stars
Gasoline and coffee bars changed my way
Whoah-oh-oh

And you crave sensation
and fascinations over you
But everything is changed now
So what you gonna do?

If we're all forsaken
then what am I to you?
I could change your mind if you want me to
Remember where you came from
Forget what they're telling you

I never could take my mind off you
You're everything I'll never do

If we're all forsaken
then what am I to you?
I could change your mind if you want me to
Remember where you came from
Forget what they're telling you

You crave sensation but imitations as you do
I could change your mind
Let me change your mind
