

Open your eyes with the sunrise
Don't waste a breath, look at the light
Until you see the truth and believe
Time is short and you're done
This life, it tricks and it deceives

The earth can take us into the ground
It will not forsake us, we will be found
The earth can take us into the ground
We won't turn to ashes, even if we die

I'll burn in your memory
I'll become part of your entity
I'll be like the sun, I'll be like the sun
I'll burn in your memory
I'll become part of your entity
I'll be like the sun, I'll be like the sun

A circle of life that never ends
What was broken we cannot mend
One life goes out, another appears
Feel your soul slipping away
Before too long we will disappear

The earth can take us into the ground
It will not forsake us, we will be found
The earth can take us into the ground
We won't turn to ashes, even if we die

I'll burn in your memory
I'll become part of your entity
I'll be like the sun, I'll be like the sun
I'll burn in your memory
I'll become part of your entity
I'll be like the sun, I'll be like the sun

When the sun falls
When the sun falls

I'll burn in your memory
I'll become part of your entity
I'll be like the sun
I'll burn in your memory
I'll become part of your entity
I'll be like the sun
