

I Wish I Was Crazy Again

Dale Watson

You left me, I left too
I went right out of my head
The old boy they all knew
They all knew was pretty much dead

You know, they say I went crazy
And by "crazy" I mean mentally insane
I had a world where I still had you
Oh I wish I was crazy again

Crazy again, crazy in love
Ignorantly bliss baby
That's what dreams are made of
There was no hurtin'
I lived life without pain
You'd still be in my arms baby
If I was crazy again

I guess what I miss is
The not missin' you most
That feeling on oneness
That every one of us should know

When the hours were ours
And I sit talkin' to the wind
And your soul danced with my soul
Oh I wish I was crazy again
