

Pear

Damien Jurado

I don't need a safer place to land
All my life was built on the sinking sand
What you see is what you get

If I do come home please leave the light on
(I don't need a safer place to land)
You tell so and so to leave a bed
(All my life was built on the sinking sand)
You should've said, you should've said

You should've said, you should've said
