

One More Block

Dan Bull

Hello!

So, alot of people want to know what "MC" stands for
"Is it, uh, 'microphone controller'?"

Nope

"Is it 'Master of Ceremony'?"

Nope, certainly not

It's Minecraft!

And I am Dan Bull

I've got to admit

I rather like playing Minecraft

Even though the graphic style's

Older than an iron bath

Creative's great but on survival

I am crap

It's like the beginning of Oblivion

With the giant rats

Swingin' my fists around

And all I hit's the ground

This shit's tricky

And I'm not spittin' about the Bristol sound

Wish I could be whipping out

A pixelated pistol, pow!

Pigman down

Now let's hit the town

Before I got this game I promise you

I did go out

But I've given it up for bricks

I'm clinically addicted now

I need my fix

Or else I'll never leave my little house

Until I make it bigger

When my finger simply clicks the mouse

It fills me with a sensation of power

That's why I'm building me a sensational tower

To compensate for the shame

When I gaze down in the shower

I've played for hours

I need to wee, so later

I'll have to change my trousers

Just one more block

And I swear I'll stop (Swear I'll stop)

Just one more block

And I swear I'll stop (Shush)

Never mind beta blockers

I'm playing beta

And the blocks keep dropping

Like SEGA's stocks lately

Watch

I'm taking mobs down

Like a crazy cop

It'll take a hand amputation

To make me stop

Go figure

My axe and crafting table made me lots

Gold digger
Bigger than Kanye and Jamie Foxx
Behaving like an 80's b-boy
Breaking rocks
Remaking the Museum of Buildings
At Avoncroft
It's like a Lego set
With infinite bricks
And no chance of your vacuum cleaner
Pickin' up the bits
When I feel philosophical
I sit and look at it
And think I'd rather dig
Than touch Vanessa Hudgens' tits
It's like a game of Jenga
Without your friends beside
And there's a side
I'm quite eager to emphasize
Of course it's a geeky venture
Are you then surprised
Someone made a life-size model
Of the Enterprise?
I went and tried that myself
But I got bored quick
Although I still managed to replicate
The Borg ship
And all it took
Was one brick
And one click
I know what you're thinking
No need to say it
I'm sick

Just one more block
And I swear I'll stop
Just one more block
And I swear I'll stop

"You play Minecraft?
Oh my God
You're such a square"
"Yeah, I like Minecraft
It's positively delicious
Dan Bull
Do you dig?
I do"
