

# Starbound

Dan Bull

I'm stranded in space  
So I place my hands on my face  
Did you guess  
This isn't a situation I can handle with grace?  
Nevertheless, Dan's on the case  
And I never pander to tastes  
In case they change like the range of animals and plants in this place  
I've visited all different corners of the Galaxy  
There isn't any flora and fauna that I haven't seen  
I'm interplanetary  
Always in thrall of the random scenes  
Tangerines  
Dreams  
You'll never see such things in your National Geographic magazine  
Grab a bit of cobblestone  
Carry it and hobble home  
Boulders on my shoulders and I'm sorry for my collarbone  
But I've got to build a model home  
I don't want it to be monochrome  
Colours light my life when I'm on my own  
If I can't craft with it, I don't want to know  
I don't want to, no  
Oh, what a homophone

Starbound son  
Beam me down  
I am a Starbound son  
Leave me now  
Starbound son  
Beam me down  
I am a Starbound son  
Leave me now

I'm a hip hopper  
Got a disk in my shiplocker  
Might be fly, swap a wing for a pig trotter  
Tick tock  
Plot thickening to get hotter  
Planet calling Daniel, I think I need an ink blotter  
You're full of gas like a Novakid  
Aww, did I make you sad?  
Well I hope I did  
I'm cooking up a plan and I'm about to blow the lid  
Although there's nothing in the pan so don't open it  
So hungry  
So hungry  
I'm in a hurry to put something in my tummy  
So hungry  
I'm so hungry  
I'm in a hurry to put something in my tummy  
Yummy  
Brineapple pie, Neonmelon and a Pineapple  
Pine for a Coralcreep  
Curry  
Curry  
I'm so hungry  
I'm in a hurry to put something in my tummy

Starbound son  
Beam me down  
I am a Starbound son  
Leave me now  
Starbound son  
Beam me down  
I am a Starbound son  
Leave me now

I need to explore  
I've got an aching feeling, the call:  
The Universe is waiting  
This is a race for the mineral and ore  
Love the thrill of the chase so I'm winning in the war  
Love Dreadwing Penguin  
I pin him to the floor with a minimum of effort  
Then I'm ready for some more  
I need to explore  
I've got an aching feeling, the call:  
The Universe is waiting  
Every Galaxy is a snowflake  
Floating in the sky like an island, no fake  
This is a fact; it's actual  
Zoom in and in and in  
And interact with the fractal  
Every snowflake is a Galaxy  
Floating in the sky like an eye looking back at me  
This is a fact; it's actual  
Zoom in and in and in  
And interact with the fractal

Starbound son  
Beam me down  
I am a Starbound son  
Leave me now  
Starbound son  
Beam me down  
I am a Starbound son  
Leave me now
