

# We Happy Few

Dan Bull

We only want you to be happy  
We only want you to be happy  
And if you refuse  
We won't be held accountable  
For what  
We do to you  
Take your joy

Well well welcome to Wellington Wells  
A tranquil town  
Nestled gently in the fens and the fells  
Folk flocked from afar  
They were fairly compelled  
By a desire to repel  
Negative memories' spells  
But nothing ever even happened  
Did it?  
So let me dispel  
The tittle tattle  
It'll baffle  
Leave you empty a shell  
Clearly unwell  
But we've the medicine  
To better your health  
There's nothing quite like a rest  
To replenish the cells  
In the home of debonair gentlemen  
And delicate belles  
Women are feminine, svelte  
Donning an elegant blouse  
While the men are in trousers  
Of sumerian felt  
Under double breasted blazers  
With the trendy lapels  
But if you break the legislation  
You'll be readily dealt  
There's nothing quite like arrest  
To replenish the cells  
So don't expect to be held  
In a respectable house  
Without respecting the house rules  
In which we excel  
So any petulant wheelk  
I detect collecting intel  
Upon this excellent realm  
Will get his rectum impaled  
As a correction, expelled  
And in the distance the yells  
Will be dismissed as a mouse  
Squeaking by everyone else

We only want you to be happy  
We only want you to be happy  
And if you refuse  
We won't be held accountable  
For what  
We do to you

Take your joy

Oi

Take your place

With the wellies

And the wastrels

Lace your crepes

With a bellyful

Of brain fuel

Brain fooled

Hey

You could barely call it tasteful

Buddy

But he bloody better be grateful

And take another plateful

Straight from the table

Today we're serving up betrayal

By the ladle

What do you need to pray for?

You're already faithful

All your mistakes

Have been already paid for

Any deviation from the state

Will be painful

That's just not cricket

Baseball

Make sure

If you see a welly acting at all strange

Call us so we can lay laws

Never mind

If I barely can sing

Blame that on the very bad

Thing

Moving swiftly forward

Awesome

To the portion

Talking to law enforcement

This is Jimmy

British bobby

Hitting civvies

Is his hobby

But you've got nothing to fear

If you adhere to the rules

That are utterly clear

Dress to impress

Be nice and polite

Take your joy

Stay inside in the night

And the bobby on the beat

Won't have to beat you

Save that for the happy few

We only want you to be happy

We only want you to be happy

And if you refuse

We won't be held accountable

For what

We do to you

Take your joy

Take your joy

Enjoy your joy

Take your joy

It's the safest choice

An attack of anxiety  
As I hang by a  
T H R E A D  
To sobriety  
Why oh why  
Are we pushed to the margin  
By high society  
Shoved in the garden  
Shuffling past  
Muttering crap  
As we fight to survive  
On nothing but scraps  
Look and understand  
I'm an upstanding chap  
Nothing underhand  
I just want something back  
From the upper class  
That have got the upper hand  
On the downers  
It's upside down  
Front to back  
But on the upside  
Downers are up  
To get down  
And they're down  
To get up  
Take a ticket to town  
Dig it?  
Digging around  
To get in and out  
Quicker than I will have  
When I've figured it out  
Wow  
Eureka  
We reek of  
Fap  
Pee  
Poo  
Phew  
But at least we're the happy few

There's no better place to live in  
No better living  
Than the land  
Where happiness is a given  
Why trouble your mind  
With decisions  
Free will is the kindest of prisons  
Take joy  
See the light through the prism  
Close your eyes  
And vibe to the rhythm  
Listen  
That is the sound of serenity  
Arise  
Sapping downers of energy  
Given them  
A smack around for their benefit  
A bit of rough and tumble  
Is the healthiest sedative  
Well at least it is now  
'Cause I said it is

And any doubt  
Is a mouthful of heresies  
Don't like drugs  
Any you're doubtful of therapy?  
There's very little help  
For you now  
So the remedy  
For downers  
Inherently  
Renowned to be menaces  
Is a swift kick in the head  
Oh, yes it is

We only want you to be happy  
We only want you to be happy  
And if you refuse  
We won't be held accountable  
For what  
We do to you  
Take your joy  
Take your joy  
Enjoy your joy  
Take your joy  
It's the safest choice
