

# Deception

Dance Gavin Dance

Better wake up before it's all gone  
Better wake up before it's all gone  
Half wrapped in a leopard print sex swing  
The beat is shit and I'm 'bout to make a new slang  
If your momma was a bed of kites, then we could fly away  
And fuck this night right

I feel the brick wall hit  
You've never been me before  
I feel the will I trick  
Self-deprecation to settle the score

Here comes the reaper to erase what I've become  
I won't be plastic and neutered and numb  
I won't be plastic and neutered and numb  
I won't be plastic and neutered and numb

I couldn't help it made me wonder  
If you're the weight that pulled us under  
All of it was make believe  
All of it was make believe

And now I'm pulling back the covers  
Thought I could trust you like no other  
All of it was make believe  
All of it was make believe

Deception

Cordial graces, smiling faces, back and forth  
Antiquated, overrated, social whores  
I don't need you  
I don't need you anymore  
I don't need you  
I don't need you anymore

And there's code for people like you  
Always keeping score  
And you will never make me like you  
Because I'm colder than before

You made me this way  
You made me this way

Pay your debt, don't suffocate  
If you're making it, don't eat the cake  
If you're faking it, then show 'em bait  
Don't be so disgusting

Like wind on the wick  
I see the symptoms inside of your binges  
I checked that you weren't dead  
I check then I got sucked in

I couldn't help it made me wonder  
If you're the weight that pulled us under  
All of it was make believe

All of it was make believe

And now I'm pulling back the covers  
Thought I could trust you like no other  
All of it was make believe  
All of it was make believe

Deception
