

Night Sway

Dance Gavin Dance

When your apathy's gone sadistic
And you've discarded truth
All of your work is worthless
Now you're dancing with doom
Your ego runs rampant
And tells you you're screwed
So I tried to watch the witness
And I found out I'm you

We got addicted to the what could go wrong?
I think I'm livin' right, if you just play along
We got addicted to our lonesome theme song
Plans for the planet, we're done, run

I'm your prison
Won't you listen
Give me back your pride

Don't depend on me
A let-down forever
Stop defending me
We'll go down together
Don't depend on me
A let-down forever
Stop defending me
We'll go down together
Go down together
We'll go down together
Go down together

When your apathy's gone sadistic
And you've discarded truth
All of your work is worthless
Now you're dancing with doom
Your ego runs rampant
And tells you you're screwed
So I tried to watch the witness
And I found out I'm you

It won't need us right after we've fed
It enough, let's just hope it's our dad
You think a genius got shit on this lad
Load up the lantern and let there be...

Unconditionally dependent
Love is hard to find

Don't depend on me
A let-down forever
Stop defending me
We'll go down together
Don't depend on me
A let-down forever
Stop defending me
We'll go down together
Go down together
We'll go down together

Go down together
