

# I Feel So High

Daniel Johnston

Everything is so much better  
Now that we are back together  
I did what I had to make you mine

Just to see your shiny face  
Makes me feel like on a race  
And everyday is christmas time

I feel so high  
I feel so high  
I feel so high  
I feel so high

I promise you everything  
Now I give it to you too  
I'll buy you a wedding ring  
Put it on your finger with glue

You're the only one  
I could ever look in the eye  
I love you forever even after I die

I feel so high  
I feel so high  
I feel so high  
I feel so high

You were the only one who ever really believed in me  
And I strive to be the man you made me  
You were an angel sent down from above  
Took me out of my misery into love

You are the light in the darkness  
You are the queen of my heart  
And I loved you right from the start

Wash away in sadness  
Through my mind  
You were so nice to me, you were so kind

I feel so high  
I feel so high  
I feel so high  
I feel so high
