

# Human Woman

Daniel Lavoie

Human Woman let me be your dream shadow  
Human Woman let me be your dream shadow  
Fly through my night sky  
Show me how, don't tell me why

So that hour after hour in your eyes  
I feel the power in your sigh  
Hour after hour in your arms  
Burning to the magic of your charm

Human Woman wrap your thunder arms around me  
Human Woman come and let your jet stream surround me  
Fly through my night sky  
Want me want me you godless beauty

So that hour after hour in your eyes  
I feel the power in your sigh  
Hour after hour in your arms  
Burning to the magic of your charm
