

Looking Out For You

Daniel Lavoie

Got myself a motorcycle
I'll ride off into the wind
Aim my nose at the horizon
Never look back again

City life is killing me
So don't ask me to wait
You gotta make up your mind right now
Cause girl, I'm on my way

Got myself a motorcycle
Singing a highway song
I don't know where it's taking me
But it's taken me so long

I don't care if it's weak or strong
Leaving it all behind
Something out there calling
Telling me it's time

Every day
I'll be looking out for you...

I know there's a mountain
Where I can ride out to the snow
Look out over the ocean
Where the tall ships go

Far away from the smoke and the noise
Listen to the sea
We could rest our tired hearts
Won't you come with me

Every day
I'll be looking out for you

Cause when I see mountains
And I see sky
I know something's got to be right

Every day
I'll be looking out for you

I know one day I'm gonna find you

Every day
I'll be looking out for you

Cause I know one day you're gonna find me
