

Sad Eyes

Daniel Lavoie

Sad eyes were never be made for this
Sad eyes should never be lonely
Sad eyes were never made for this
Sad eyes should never be lonely

You want to fly like a bird
Not cry with the herd
And never be lonely too

Were you alone again tonight
Were you believing it's all right again
This is the season of the lonely nights
And they've got as believing it's all right.

Sad eyes were never made for this
Sad eyes should never be lonely
Want to head for the clouds
Not shuffle in the crowd
You can do what you want
And never be lonely too.
