

# Roulette

Danity Kane

We can go anywhere, anywhere I don't care  
See the spark in your eye  
Show you how it all goes  
I'll show you how it all goes  
Run my way, in your eyes, Chevrolet  
Paradise, every night, every night, every way the wind blows  
Any time the sun goes

Sensational  
When we explode  
You make me go  
Delusional  
So

Tonight let's make sure that  
Don't look back, just forget  
All we know  
Take your shot like, like roulette  
Let's get wild no regrets  
Make my heart hear away  
Take your chance  
Let's get wild on your roulette

Hop up  
In the car  
PCH  
After dark  
Show you mine  
Show me yours  
Foggin' up the windows  
Floating when it all goes

Late night  
On the beach  
Making out to Jodeci  
All my life  
All my life  
I've been waiting so long  
For you to show me how it goes

You know, you know, that I can't help my self  
Let's go, let's go, till we see morning light

Sensational  
When we explode  
You make me go  
Delusional  
So

Tonight let's make sure that  
Don't look back, just forget  
All we know  
Take your shot like, like roulette  
Let's get wild no regrets  
Make my heart hear away  
Take your chance  
Let's get wild on your roulette

Let me show you how to roll  
Down like the blades in my speaker  
You're the bomb that I wanna blow  
Every night  
Let me show you how to roll  
We could, we could run away, I'm a keeper  
If you say it's only physical

Tonight let's make sure that  
Don't look back, just forget  
All we know  
Take your shot like, like roulette  
Let's get wild no regrets  
Make my heart hear away  
Take your chance  
Let's get wild on your roulette
