

# City Streets

Danko Jones

I've been feeling this too long  
When you leave it all goes wrong  
The only thing I know it isn't right

Busy streets have lost their rush  
Buildings towered turned to dust  
Like everything just disappeared in the night

It's when I walk these city streets  
I realize the time that just went by  
(don't you know)  
Like an old friend I hardly know  
Now that I've been away for all this time

I was hoping this would pass  
But once it's here, it's here to last  
I wish it could just all remain the same

I'm a stranger when I'm home  
'Cause all alone is all I know  
That's what happens when you go astray

It's when I walk these city streets  
I realize the time that just went by  
(That just went by)  
Like an old friend I hardly know  
Now that I've been away for all this time

I know I've made my bed  
Sad thoughts are in my head  
Barely holding back the tears  
But when I watch the living dead  
Wake up and break their bread  
I know it's not for me, yeah-ee-yeah

It's when I walk these city streets  
I realize the time that just went by  
Don't you know  
Like an old friend I hardly know  
Now that I've been away for all this time

Oohhh oohhh oooohhh  
Ooooohhh oooohhh oooohhh

You're on your own, you have to hold onto what you feel's rightly you  
rs  
Don't let anyone tell you it ain't worth the time
