

# Home to Hell

Danko Jones

When I hold a grudge I hold a grudge for life  
When you crossed me you were dead in my eyes  
If we're ever in the same room you better watch your step  
You will never be forgiven 'cause I never forget

When the shit went down you did too  
You're the first to fly the coup I'm the last to leave the troop  
But when the revolution comes I'm gonna leave you for dead  
I know where I'm going...I'm going straight to hell

I'm out for blood and it haunts my mind  
In the darkest places your tears make me smile  
I've got no secrets I've just got sweat  
And you will never be forgiven 'cause I never forget

When the shit went down you did too  
You're the first to fly the coup I'm the last to leave the troop  
But when the revolution comes I'm gonna leave you for dead  
I know where I'm going...I'm going straight to hell

Kill me now so I can get there faster

When the shit went down you did too  
You're the first to fly the coop and I'm the last to leave the troop  
But when the revolution comes I'm gonna leave you for dead  
I know where I'm going...I'm going straight to hell
