

Sleep Is the Enemy

Danko Jones

I'm ready when
I wake up I'll take on everything
I'm made of gasoline
Relax is not a word I understand
it makes no sense to me
Attack never bend shit man
you should do something
Don't think that time stands
still it's passing you by meanwhile I'm ready

Sleep is the enemy sleep is the enemy

Good morning how you doin
hit the bottom rock the cradle
Skim the fat get the payoff stay
lean keep the blood clean and get ready
Fear is what needs to be
put to sleep out of reach
And when you decide you've got
to do it and move it you can feel it

Sleep is the enemy sleep is the enemy

Stay still be calm relax
screw that pull the alarm
Make the waves roll the
dice suck the life beat on the brat
Cut the crap turn the white black

You know what I'm talking about

I'm ready when I wake up
I'll take on everything I'm made of gasoline
Relax is not a word I understand
it makes no sense to me
Sleep is the enemy sleep is the enemy
I'm ready
