

# Trying To Get Over You

Danni Leigh

I wanted love so bad  
I gave it all I had  
It made me feel so good  
I gave it all I could

But now the love is gone  
And I just ride the storm  
Oh, the things I do  
Trying to get over you  
Trying to get over you

Travel around to who knows where  
In every crowd, I see you there  
I hear your voice in all the towns  
It breaks my heart with just the sound

And now the love is gone  
I'll just ride the storm  
Oh, the things I do  
Trying to get over you  
Just trying to get over you

There's so many ways to hide  
Things that hurt us deep inside  
Yeah, I'll get by just fine  
But you're still in these dreams of mine

And now the love is gone  
I'll just ride the storm  
Oh, the things I do  
Trying to get over you  
Just trying to get over you
