## **Bad Weather**

## Dannii Minogue

Love is bitter sweet Like a fine day turned into suffering Each day a little rain's gonna fall Building up like a thunderstorm Why can't I pretend that it's all cool? Don't wanna lose you

I might just close my eyes and Sit tight, hope for the best

I can feel it comin' I can feel it comin' And I know there's gonna be bad weather I can feel it movin' I can feel it movin' Now I'm walking in bad, bad weather How can something so bad feel so good? I can feel it comin' I can feel it movin' I don't like my chances without you I can feel it comin' Bad weather

Love is always easy to hold But harder to keep oh No use giving up when I've Come this far, I'm in deep so Why can't we pretend that it's all cool? Don't wanna lose you This cold burns through my skin But I just can't give in

I might just close my eyes So sad, I know (with you) This cold burns through my skin I can't let go

I can feel it comin' I can feel it comin' And I know there's gonna be bad weather I can feel it movin' I can feel it movin' Now I'm walking in bad, bad weather I can feel it comin' I can feel it comin' And I know there's gonna be bad weather I can feel it movin' I can feel it movin' Now I'm walking in bad, bad weather

How can something so bad feel so good? I can feel it comin' I can feel it movin' I don't like my chances without you I can feel it comin' Bad weather

```
I can feel it comin'
I can feel it comin'
I can feel it comin'
I can feel it movin'
Moving
I can feel it comin'
Bad weather
```
