

Don't Wanna Leave You Now

Dannii Minogue

Close to you
Baby I hear your heart
Beating in and out of time
Ooh, I'm leaving soon

So sad and lonely
Baby when we're apart
I need to feel you by my side
Ooh, you know I'll miss you

I don't wanna leave you now
My heart keeps crying out
I know I'll try to get through somehow
Don't wanna leave you now

I whisper to you
Baby this just ain't right
Tears these eyes just cannot fight
Ooh, I'm leaving soon
I see your face when I sleep at night
I kiss your lips and hold you tight
Ooh, you know I'll miss you

I don't wanna leave you now
My heart keeps crying out
I know I'll try to get through somehow
Don't wanna leave you now

Everytime I'm back in your arms
We seem to start all over again
It's just that your touch keeps me going
Still I keep on hoping this pain will end

I don't wanna leave you now
My heart keeps crying out
I know I'll try to get through somehow
Don't wanna leave you now

I don't wanna leave you now
My heart keeps crying out
I know I'll try to get through somehow
Don't wanna leave you now
(Don't wanna leave you now)
(Heart is crying out)
