

# Everybody Changes Underwater

Dannii Minogue

It's dark and silent  
Where am I?  
Love surrounds my body  
My eyes are closed, but I see  
Colours have soothed the soul  
Moving as part of this world  
Taking it to ...floor  
Diving deeper, backened by dolphins  
They appear and dance around me  
Brushing against my skin, tickling  
I swim closer, speaking of thoughts ...are friendly  
Where I stand  
It's safe beneath the waves

Is this real  
Is this real

Everybody changes (everybody changes) underwater  
Everybody changes (everybody changes) underwater  
Everybody changes (everybody changes) underwater

I come up for air  
I just want to prove everything is new ...seems to cool  
And fill the water to a garden  
Fruit ...from the trees  
I reach up and take it  
It's ripe, soft, and sweet  
I feel there's a long grass  
I run my fingers through the blades  
Umm...feel inside me  
I lie back closing my eyes  
The song soothes me  
I begin to float, floating higher and higher  
Higher and higher

There's now darkness  
Looking down, the world is ...  
If I fall, no one will catch me  
Space, everywhere I once and ...all  
Floating in the small part of the endless universe  
I feel glowing starts, Poseidon and ...  
Someone to ...  
A finding light appears  
So it's a life I recognize  
You reach out your hands  
And welcome me like angels

(Close your eyes, drift away...)

Is this real?  
Is this real?
