

I've Been Waiting For You

Dannii Minogue

I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you

Place you on a pedestal
My discovery, I pray
Angel with a dirty face
And a natural love
All my senses sway

Let me find you
Let me take you
Let me show you

This love is the only one
That never hurts
I pray
Somebody to shelter me
To follow me
Like a non-stop game

Let me find you
Let me take you
Let me show you

All my patience
All my trouble
All my passion

I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you

Diving in the mystery
I wet my feet
I pray
Your kingdom enchants me
Like a memory
And your eyes will sing

Let me find you
Let me take you
Let me show you

All my patience
All my trouble
All my passion

I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you

Let me find you
Let me take you

Let me show you

Let me find you

Let me take you

Let me show you

Let me take you

Let me take you

I've been waiting for you

I've been waiting for you

I've been waiting for you

I've been waiting for you
