

Love In Me

Dannii Minogue

I need, I need, I want

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me

Tell me what to say to prove how much I care
Tell me what to say to make you need me
You've been hurt before, I guess you're a little scared
Where you wanna go, my love is leading

And all you've got to do
Is let me take control
Yes, all you've gotta do
Is babe let me show you all my love

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me

Come on take my hand and move a little closer
And let me share my dream of tender kissing
I'm gonna find a way to help you ease the pain
Baby, I will show you what you're missing

And all you've gotta do
Is let me take control
Yes, all you've gotta do
Is baby let me show you all my love

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me

Wanna get your love, wanna get your love
Wanna get your love in me tonight
Wanna get your love, wanna get your love in me
