

Round the World

Dannii Minogue

Round the world
Round the world
Round
The world
Go round the world, world, world, world

I got a room with a view on hold
I got a space you can share with me
I'm out of step and I'm all alone
It's just the way I feel
Oh
I spend a long time holding onto memories

I need you now
At the tip of my finger
Your body's gone
But your kisses linger
I know the language you are using
We're travelling baby
Without moving

Round
The world
Go round the world
I can tell that you're thinking 'bout it
Now
I'm your girl
Go round the world
I can tell that you're thinking 'bout it

Whenever I can't find the time
Wherever are taking me
Whatever you've got on your mind
Is what I want to hear
Oh
It's been a long time
All I have is memories

I need you now
At the tip of my finger
Your body's gone
But your kisses linger
I know the language you are using
We're travelling baby
Without moving

Round
The world
Go round the world
I can tell that you're thinking 'bout it
Now
I'm your girl
Go round the world
I can tell that you're thinking 'bout it

Round
The world

Go round the world
I can tell that you're thinking 'bout it
Now
I'm your girl
Go round the world
I can tell that you're thinking 'bout it

Oh, oh, oh, oh
Oh, oh, oh

I need you now
At the tip of my finger
Your body's gone
But your kisses linger
I know the language you are using
We're travelling baby
Without moving

I need you now
At the tip of my finger
Your body's gone
But your kisses linger
I know the language you are using
We're travelling baby
Without moving

Round
The world
Go round the world
I can tell that you're thinking 'bout it
Now
I'm your girl
Go round the world
I can tell that you're thinking 'bout it
