

# Skin Deep

Dannii Minogue

Make it more than skin deep  
More than skin deep

Make me feel the love inside  
Take away the things you hide  
If you really want my heart  
You have to make it clear right from the start

'Cause I never had a lover  
Who could make me feel this way  
And I'll never need another  
If I trust you, baby

I wanna be sure that it's more than skin deep  
I want a love I can keep  
I wanna be sure that it's more than skin deep  
I want a love that I can keep

Baby, you came just in time  
You cleared the dark clouds out of my mind  
I believe in you  
Don't mess around with a heart that is true

'Cause I never had a lover  
Who could make me feel this way  
And I'll never love another  
If you tell me you'll stay

I wanna be sure that it's more than skin deep  
I want a love I can keep  
I wanna be sure that it's more than skin deep  
I want a love that I can keep

I wanna be sure that it's more than skin deep  
I want a love I can keep  
I wanna be sure that it's more than skin deep  
I want a love that I can keep

Just let me touch you, baby  
Let me fill you up with joy  
Show me it's real love  
Make this forever

So sure, so sure  
Make it more than skin deep

I wanna be sure that it's more than skin deep  
I want a love I can keep  
I wanna be sure that it's more than skin deep  
I want a love I that can keep

I wanna be sure that it's more than skin deep  
I want a love I can keep  
I wanna be sure that it's more than skin deep  
I want a love that I can keep
