

Summer of Love

Dannii Minogue

(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)

Feels like the summer of love
Feels like the summer of love
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)

Feels like the summer of love
Forget the world, we don't need nobody
Just about having some fun
And only do it if it makes you happy
When the sun begins to fall
That's when we can have it all
Feels like the summer of love

(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)

Grease, and I'm on track 'cause I'm from the underground
Tryna play cool man 'till I hit a flat
When I take off I don't never wanna land
They may not like me, but I am who I am
Yeah, I'm a wizard, speaking of witch
They know I'm more oz than [?]
Put it into London and then we press play
Anyone in my way is about to go Pow
London city I was born and raised
But when I'm in Sydney, I do it all for days
I come from the estates, I got a big crew
My own lyrics, I was born this way
I got this one friend and we talk for days
We came to an agreement to celebrate
Summer in waving, he said I wouldn't make it
Reece and Dannii's going all the way

No matter where you're from
That's the summer of love!

This is the summer of love
Feels like the summer of love
Gimme me the summer of love
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
Feels like the summer of love
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
(We don't need nobody)
