

# Take Me Inside

Dannii Minogue

In the dark there's a space that's calling me  
There's a flame of light that's burning  
And the sun never casts a shadow here  
And the daylight doesn't matter

Take me inside  
Take me inside

You're the journey that keeps taking me  
And the parts of your heart discover  
And the tide is rushing over me  
Your taste is like a treasure

Take me inside  
Take me inside  
Take me inside  
Take me inside

In the dark there's a space that's calling me  
There's a flame of light that's burning  
And the sun never casts a shadow here  
And the daylight doesn't matter

Take me inside  
(Take me inside)  
Take me inside  
(Take me inside)  
Take me inside
