

Viva L'Amour

Dannii Minogue

Viva L'amour

I dance in the dark
I wanna stay away from the light
But it still do it again
I can't resist
This energy
I live for the spark
I light the fuse and watch it ignite
That's right
Drop the bomb boy
It's kicking off on the floor

Viva L'amour
I live to love you
Viva L'amour
I love to love you
It's a secondary crush
Everytime we touch
Viva L'amour

I'll be the same
I don't wanna do it alone
Baby keep turning it up
I burn in this energy
Get out of my way
Cos now i'm getting ready to go
Hold tight
Drop the bomb boy
It's kicking off on the floor

Viva L'amour
I live to love you
Viva L'amour

I love to love you
It's a secondary crush
Everytime we touch
Viva L'amour

Don't worry baby
It's me and you
We got it baby
I'm feeling you
You rock me baby
To the core
I love you baby
Viva L'amour

Drop the bomb boy
It's kicking off on the floor

Viva L'amour
I live to love you
Viva L'amour
I love to love you
It's a secondary crush

Everytime we touch
Viva L'amour
I live to love you
Viva L'amour
I love to love you
It's a secondary crush
Everytime we touch
Viva L'amour
