

# Kiss You All Over

Danny Saucedo

I wanna taste, wanna taste every part of your lips  
Wanna feel, wanna feel every touch of your skin  
Wanna be, wanna be everything that you need, yeah  
I wanna go, wanna go to the places you hide  
Lay you down, lay you down under innocent skies  
Wanna show, wanna show you what it feels like

I'll take you there if you let me baby  
I'd give you all that I can  
No I can't hide what I'm feeling baby, I can't no longer pretend  
Cause I feel like making love, I wanna kiss you all over  
Cause I feel like making love, I wanna kiss you all over

I feel love, I feel love when I look in your eyes  
It's so real, it's so real when you lay here beside  
Come embrace, come embrace all the love that I have  
I believe, I believe it was love at first sight  
I just know, I just know that this moment is right  
Let me show, let show ya, what true love feels like

I'll take you there if you let me baby  
I'd give you all that I can  
No I can't hide what I'm feeling baby, I can't no longer pretend  
Cause I feel like making love, I wanna kiss you all over  
Cause I feel like making love, I wanna kiss you all over  
Cause I feel like making love, cause I feel like making love

I wanna know wanna know what you feel like  
I wanna know wanna know what you feel like  
I wanna know wanna know what you taste like  
I wanna kiss you all over

I'll take you there if you let me baby  
I'd give you all that I can  
No I can't hide what I'm feeling baby, I can't no longer pretend  
Cause I feel like making love, I wanna kiss you all over  
Cause I feel like making love, I wanna kiss you all over  
Cause I feel like making love, cause I feel like making love  
I wanna kiss you all over
