

## Running Away

Danny Saucedo

You see me, I see you, We both alive.

Blond hair with blue eyes, You're really nice,  
Would love to kiss you, but feel afraid,  
So I keep running away, I keep on running away

I've been here before, seen you on this floor,  
Checkin' out your beautiful body, baby, from 12 to 4,  
I think you're the type of girl, just wanna play,  
So I keep running away, I keep on running away

I keep on running away, I keep on running away,  
I keep on running away  
I keep on running away, before you drive me insane,  
I keep on running away

I know you know that I try to hide,  
That I saw that something deep in your eyes,  
And maybe, just maybe, that we could fly,  
( I think I'm running away, I think I'm running)

Slowly we're movin' at the speedest sound,  
Feels like the rooms starts to spin around,  
I can't breathe, I can't see, it fades to gray  
( I think I'm running away, I think I'm running away )

I keep on running away, I keep on running away,  
I keep on running away  
I keep on running away, before you drive me insane,  
I keep on running away

I keep on running away, I keep on running away,  
I keep on running away  
I keep on running away, before you drive me insane,  
I keep on running away
