

Hands On Me

Darius Rucker

I know where I wanna go tonight
Been thinking about it all day
I've been waiting on your paradise
Still only you know the way
I let a world outside our window
Do whatever it's gonna do
We'll have a body and soul revival
Right here in this room

When your lips touch mine I'm born again
If I never get to heaven, hell, I've already been
Lead me to salvation, girl, I'm down on my knees
Turn the lights off, slide your jeans off and put your hands on
me

Chase your shadow through the secret garden
You'll be waiting for me there, there
I can whisper hallelujah, baby
But I don't have a prayer

And only you can save me
From the crazy that you made me

When your lips touch mine I'm born again
If I never get to heaven, hell, I've already been
Lead me to salvation, girl, I'm down on my knees
Turn the lights off, slide your jeans off and put your hands on
me

And only you can save me
From the crazy that you made me

Put your hands on me
Put your hands on me
Yeah, hands on me
Put your hands on me

When your lips touch mine I'm born again
If I never get to heaven, hell, I've already been
Lead me to salvation, girl, I'm down on my knees
Turn the lights off and slide your jeans off and put your hands
on me
Yeah, turn the lights off, slide your jeans off and put your ha
nds on me
