

# Life's Too Short

Darius Rucker

Mmm that breeze feels good, don't it?  
Feet up on the cooler  
Them tunes pouring out of that sliding rear window  
Laugh to the beat of that tape deck radio  
Mmm it's a heaven on earth moment  
Got a good thing going  
Round and round like the wheels of this night  
It's a singing along kiss, close your eyes

I don't like this living, I love it  
Sweet magnolia blue skies up above it  
I don't call Carolina just a place I visit  
I call Carolina home  
I don't like drinking beer, I love it  
On the back porch swinging with my honey  
Life's too short just to like it so you better get to loving  
This living before it's gone  
Life's too short

Better get to living if the beer's ice cold  
You better get to sipping if the song's in the air  
Get you out a lighter if the party's rocking  
You pull an all-nighter cause life's too short

Mmm that six string's strumming, ain't it?  
This scene's all God painted  
I'm soaking you in while you're soaking it in  
It's like a movie baby, ain't it? Oh don't waste it

I don't like this living, I love it  
Sweet magnolia blue skies up above it  
I don't call Carolina just a place I visit  
I call Carolina home  
I don't like drinking beer, I love it  
On the back porch swinging with my honey  
Life's too short just to like it so you better get to loving  
This living before it's gone  
Life's too short

Better get to living if the beer's ice cold  
You better get to sipping if the song's in the air  
Get you out a lighter if the party's rocking  
You pull an all-nighter cause life's too short

Oh  
You better get to pouring  
Oh  
Cause life's too short now

I don't like this living, I love it  
Sweet magnolia blue skies up above it  
I don't call Carolina just a place I visit  
I call Carolina home  
I don't like drinking beer, I love it  
On the back porch swinging with my honey  
Life's too short just to like it so you better get to loving  
This living before it's gone

Life's too short

Yeah you better get to living (The beer's ice cold)  
Oh you gotta get to sipping (The song's in the air)  
I'm gonna get you out a lighter (The party's rocking)  
Girl you gotta pull an all-nighter cause life's too short
