

# Perfect

Darius Rucker

You didn't see me walkin' in  
You were lookin' in the mirror and  
You looked perfect  
Hadn't put on your makeup yet  
You were sayin', how your hair's a mess  
But you looked perfect

No, you don't see what I see when I look at you girl  
You don't know how beautiful you are  
You're never ready and you need more time  
You say your jeans never fit you right  
But your eyes and your shy little smile and your own kinda style  
It's so perfect, perfect

I hear you singin' to the radio  
Sometimes you miss a couple high notes  
But it sounds perfect  
And when we go out and  
Everywhere's too crowded  
And we just end up drivin' around  
It's, oh baby, it's still perfect  
Just perfect

No, you don't see what I see when I look at you girl  
You don't know how beautiful you are  
You're never ready and you need more time  
You say your jeans never fit you right  
But your eyes and your shy little smile and your own kinda style  
It's so perfect, perfect

Your touch and your kiss and your skin and your lips  
And your name  
All the little imperfections you wish you could change  
Every little everything is perfect

No, you don't see what I see when I look at you girl  
You don't know how beautiful you are  
You're never ready and you need more time  
You say your jeans never fit you right  
But your eyes and your shy little smile and your own kinda style  
It's so perfect, perfect
