

## Hell's on Its Knees

Dark Angel

The master knows all temptations  
He'll bring you to your knee's  
And when you think  
That your through  
He will spring on you

Hell's on it's knees  
Hell's on it's knees  
Hell's on it's knees

He's coming to get you  
He'll drive right through you  
He'll burn you alive  
When you find him  
You fly right to him  
You feel him breathe

Hell's on it's knees  
Hell's on it's knees  
Hell's on it's knees

The ride is over you try to turn  
Now it's your turn so burn  
You go too fast your soul will fly  
It will will fly up high  
The master know's all temptations  
He'll bring you to your knee's  
But when you think  
That your through  
He will spring on you
