

This Is My Way

Dark Moor

This is my way
a bitter hint in a true laughter
This is my world
better a "soon" than the best "after"
Living my way
living my world
in contradiction

This is my way
a smiling child playing in rapture
This is my world
honesty and right always in capture
Living my way
living my world
in contradiction

The gladness
the sadness
are both my life
they're the same
comedy and melodrame

O, my life
O, my body and soul
walk by the beach
run through the streets
only trying to reach
my innocence as it fleets
at leisure stroll

This is my way
fire in the heart
and in my imagination
This is my world
needed of art
and of a brilliant inspiration
Living my way
living my world
in contradiction

The gladness
the sadness
are both my life
they're the same
comedy and melodrame

O, my life
O, my body and soul
walk by the beach
run through the streets
only trying to reach
my innocence as it fleets
at leisure stroll.
