

# Fucked Up and Ready to Die

Darkthrone

Stripping on twisted knives in miscreation  
Norway be my grave  
Increasingly insecure  
Combine with stagnant joy

Half my life in your name  
Fucked up and ready to die

Death just takes a moment  
Suffering is forever

Let's leave this sinking ship together  
The water of life will fill your lungs  
Drink 'till you bleed  
When contradictions fail to soothe

Half my life in your name  
Fucked up and ready to die

Murder only takes a moment  
It'll last you forever
