Let's go to a masquerade
Let's stay up all night
Let's go and collaborate
La, la, la
Let's-
La, la, la
Let's-, let's-, let's-
Let's-

I was looking for a light out in the valley
You were looking like a star in a silhouette
And you said that you don't smoke, but this is Cali
And you came here for a night you won't forget

I know that I'm no, no superhero
But I can be the next avenger if you like me to
I'ma keep it one double zero
I got the car, the cash enough to last tonight with you

Baby
Let's go to a masquerade
Let's stay up all night
Let's go and collaborate
La, la, la
Let's get to the afterglow
Let's go make a mess
Let's get weird and lock the door
La, la, la
Let's-, let's-, let's-
Let's

I was looking for a ride outside a disco
You were looking like a reason to return
And you said that you came back from San Francisco
And you were up to find a flow that you could burn

I know that I'm no, no superhero
But I can be the next avenger if you like me to
I'ma keep it one double zero
I got the car, the cash enough to last tonight with you

Baby
Let's go to a masquerade
Let's stay up all night
Let's go and collaborate
La, la, la
Let's get to the afterglow
Let's go make a mess
Let's get weird and lock the door
La, la, la

Come on, come on
We can do whatever, we can do whatever
Come on, come on
We can do whatever, whenever together
Come on, come on
We can do whatever, we can do whatever

Come on, come on

Let's go to a masquerade
Let's stay up all night
Let's go and collaborate
La, la, la
Let's get to the afterglow
Let's go make a mess
Let's get weird and lock the door
La, la, la
Let's go to a masquerade
