

Flashlight

Darren Styles

Reaching out
Reaching out
For my own salvation
And don't look back
Leave yesterday behind

I took a chance on you
Need to feel protection
I'm stronger now
And you're the reason why

So show me the way
You're the road that I have chosen
Light up my day
No more tears and I'm unbroken

Show me the way
You're the one that I've been searching
Guide me today
Just like a flashlight, like a flashlight

Just like a flashlight, like a flashlight
Just like a flashlight, like a flashlight

So show me the way
You're the road that I have chosen
Light up my day
No more tears and I'm unbroken

Show me the way
You're the one that I've been searching
Guide me today
Just like a flashlight, like a flashlight

Just like a flashlight, like a flashlight
Just like a flashlight, like a flashlight
Just like a flashlight, like a flashlight
Just like a flashlight, like a flashlight
