

# Blackward

Darzamat

In the name of hatecraft  
In the name of their blood  
In the name of the night  
In the name...

Look inside the executioner's hood  
I feel no mercy but I will let you meet him well  
Come with me upon the scaffold  
I will show you his grimace  
Hard to read and understand

Come with me upon the scaffold  
I will lead you through the horror  
Look inside executioner's hood  
I will show you his grimace

You can not hide from me

A shocking and blasphemous vision  
Making sick with smell of blood

I am the blasphemy stealing your freedom  
I insult and I hate  
I arouse fear and prayers  
Nobody dares to look into my eyes

Whose face has the executioner?

Come with me upon the scaffold  
I will lead you through the horror  
Look inside executioner's hood  
I will show you his grimace
