Close your eyes for a little while For this moment we've still got I'll go away forever now And you say love is fair Fry your hair and forget the time Put the cream on your skin Shake off the fear and shut your mouth And don't say love is fair Baby the night is long Let us sing our song Until tomorrow Baby the night is long Let us sing our song Until tomorrow Be it now or some other time It just had to come to this Like on tv, the rerun ends And you say love is fair Close your eyes when you look at me When i say so Open wide Don't say a word and don't be scared And don't say love is fair Baby the night is long Let us sing our song Until tomorrow Baby the night is long Let us sing our song Until tomorrow
