

# Christmas Tonight

Dave Barnes

Christmas tree, baby baby you and me  
We untangle plans and hung some memories  
Suit and tie, places to be tonight  
Girl, you've gotta know what I wanna go,  
it's so toasty warm inside  
Baby let's just light the fire (but i got a new dress)  
Doesn't look so safe to drive (you bought me that necklace)  
We won't know what we're missin if we don't go out for Christmas tonight

So much snow, the wind you know is bound to blow

It's too late, whatever would we say  
We shouldn't break our plans, let down our friends,  
Baby you best behave

Baby let's just light the fire (what about the city)  
Doesn't look so safe to drive (but the drive's so pretty)  
We won't know what we're missing if we don't go out for christmas tonight

You lookin too good to share  
and maybe our friends won't care  
baby we always got next year

Baby let's just light the fire  
I'll get the matches  
Doesn't look real safe to drive  
I'll grab some glasses  
We won't know what we're missing  
Maybe we should stay in baby  
Won't know what we're missin if we don't go out for Christmas tonight.
