

Darlin'

Dave Barnes

Darlin' let down your hair
Let those worries blow out into the summer air
Kick up your feet and baby you can leave them there
Darlin' lets take our q's
From the clouds in the sky blowing by without a thing to do.
No where to wait but wasting this day with you

We're all right whatever may be
I got you a baby you got me
We're all right, whatever we do
you got me baby, and I got you to.

Darlin' we got it made
Your kids are at your moma's and baby all the bills are paid
How bout' a kiss, honey I'll meet you half way

We're all right, wherever may be
I got you and baby you got me
We're all right, whatever we do
you got me baby, and I got you to

We're all right wherever may be
I got you a baby you got me
we're all right, whatever we do
you got me baby and I got you to

We're all right happy and free I got you baby you got me
We're all right nothing to lose, you got me baby
and I got you to
