

# Headlights

Dave Barnes

Summer time, midnight getaway  
I was fallin' for every word you'd say  
I'd follow the moon between the pines  
Every mile you were on my mind

Oh, we were younger  
That was way back before you were mine  
I remember those days when love kept us waiting all night  
For headlights

With every, sweet, magnolia kiss  
Hello, goodbyes hung on our lips  
The beginning of us, those swingin' doors  
Hearts not the same as they were before

Oh, we were younger  
That was way back before you were mine  
I remember those days when love kept us waiting all night  
For headlights [x2]
