

# Miles To Go

Dave Barnes

Brother I've been walking farther  
Than any man has ever been  
I got these scars on my feet  
And I've got these bruises on my chin

People they all staring in wonder  
Some they even laugh at me  
They don't know just what I'm seeking  
And if they did we would disagree

Lift up your eyes and don't stand still  
People of the world  
And people of the will  
Move on and on and on down this road.

Don't give up and don't give in  
Someday you will be strong again  
But there's still miles to go.

Sister let me tell you something  
Please don't call this bravery  
If you understood my reasons  
You'd be here to stand by me  
Up ahead: a chorus singing  
In that city set upon that hill  
Brother that's where I'm going  
And if you want you can join me still

Lift up your eyes and don't stand still  
People of the world  
And people of the will  
Move on and on and on down this road.

Don't give up and don't give in  
Someday you will be strong again  
But there's still miles to go.

If you need me  
I'll wait for you, oh I'll wait for you  
When I am gone, I am gone

Lift up your eyes and don't stand still  
People of the world  
And people of the will  
Move on down this road

Don't give up and don't give in  
Someday you will be strong again  
But there's still miles to go  
(2x)
