

# Never Lose My Love

Dave Barnes

I ain't a rainstorm that goes in and goes away  
And I ain't the sunshine, disappearing at the end of the day  
I ain't the moonlight getting chased off by the sun  
No I'm never gonna run

'Cause I love you, every bit and every thing  
It's gonna carry on into eternity  
I'm here for you, win or lose  
We'll fight when the times get tough  
No you'll never ever, never ever  
Lose my love

Never lose my love, love, love, love  
Never lose my love, love, love, love

I ain't a love song, it's good but it's gonna end  
I ain't a shooting star you're never gonna see again  
I ain't a pot of gold, it's fun till it all runs out  
That ain't what it's all about

'Cause I love you, every bit and everything  
It's gonna carry on into eternity  
I'm here for you, win or lose  
We'll fight when the times get tough  
No you'll never ever, never ever  
Lose my love

Here through every hard time  
We stay past all the pain  
You can put away the goodbyes  
It's a word we'll never say  
We'll always be there

'Cause I love you, every bit and everything  
It's gonna carry on into eternity  
I'm here for you, win or lose  
We'll fight when the times get tough  
No you'll never ever, never ever

'Cause I love you, every bit and everything  
It's gonna carry on into eternity  
I'm here for you, win or lose  
We'll fight when the times get tough  
No you'll never ever, never ever  
Lose my love

Never lose my love, love, love, love  
Never lose my love, love, love, love
